

Rotator for Forklifts

Forklift Rotators - There are various applications available for lift truck attachments. For example, the lift truck rotator could help lifting, moving and rotating barrels and drums. Various accessories could be used in order to lift cartons and carpet rolls, for pouring sand or waste materials. Some of the most regularly used lift truck attachments are the fork positioner, rotator, clamp, and side shifter attachments. These tools come in a variety of sizes to fit different forklift units. They are designed to hold really heavy things and are a benefit to a lot of factory and warehouse surroundings.
