

TCM Forklift Parts

TCM Forklift Parts - In the global industry of material handling, forklifts play a major part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the United States, forklifts gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

First started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes many models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
