

Rockwell Parts

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for quality, service, technology and delivery. They believe in working within an atmosphere that encourages the utmost integrity with empowered teamwork, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and providing a safe environment for their workers to work in. In addition, they have implemented several programs in the organization in order to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever comments or questions, because they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely devoted to preserving and improving the surroundings. AxleTech has an EHS program which not only protects the natural world but which also actively protects their neighbors and workers also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles used for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech specifically designs axles to be able to meet certain application demands. They have over 1000 different axle specs in their current offering. With more than one hundred years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle needs. The company is well known in several military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details that can be seen in the "ISAS" product collection.
